600mm (d)

1610mm (h)

1090mm (h)

| hardware specifications | wrap specifications | additional info |
|---|---|---|
| **Overall size (h) x (w) x (d):** 1610mm x 650mm x 600mm | **Tambour Wrap dimensions (h) x (w):** 1059mm x 1740mm | |
| **Weight:** 19kg | If applying a graphic to the wrap, an allowance should be made to its size to accommodate material type, thickness etc. | |
| **Optional internal shelf size (w) x (d):** 280mm x 560mm | | |
| **Useable internal shelf height:** 210mm deep | | |

**USER INSTRUCTIONS**

## Data Pod Pro assembly

Pro Kit includes: Top (A), base (B), internal shelf (C), large wrap, small wrap, monitor bracket, Linear post, allen keys

**1**

Place the base on the floor and attach the large wrap around the base onto the hook and loop as shown.

**2**

Once the wrap is in position, lower the internal shelf onto the top of the wrap, following the shape of the mounts.

**3**

Take the smaller wrap and attach to the top of the shelf, following the shape of the hook and loop mount.

**4**

Lower the top onto the smaller wrap, inserting the mount into the shape securely.

**5**

Insert cable management port. Take the screw and washer and push through the hole in the top, fixing into the Linear post.

**6**

Take the monitor bracket and screw loosely into the linear slider.

**7**

Slide the completed bracket down the post into position and tighten screws to secure.

**8**

Complete unit by attaching Linear post top into place.

*NB - For the **standard unit** without an internal shelf, miss out steps 2 and 3.*
