12 Panel & Pole Display Stand

How to Assemble a 12 Panel Display Stand

• Remove all items from the case.

• Attach 4 clips to each large panel – 2 per side.

• Attach 2 clips to the header panels – 1 each side.

• Insert a pole connector into 5 of the 3' poles.

• Clip the panels and poles together to create the bottom layer of panels.

• Working left to right attach poles onto the bottom poles.

• Clip the second layer of panels above the bottom layer.

• Insert pole connectors into the 3 - 3' poles in the centre of the stand.

• Add the 1' poles to the poles in item 8.

• Clip the two header panels to the poles in item 9.

• Clip 2 panels to either end of the display stand as shown in the illustration – these with form the 2 triangular tables.

• Draw both sets of panels to form the triangular table and secure with a 3' pole.

• Attach both triangular table tops.

• You are now ready to attach posters with Velcro.
