

19 Panel & Pole Display Stand

How to Assemble a 19 Panel Display Stand

- Remove all items from the case.
- Attach 4 clips to each large panel – 2 per side.
- Attach 2 clips to the header panels – 1 each side.
- Insert a pole connector into 8 of the 3' poles.
- Clip the panels and poles together to create the bottom layer of panels.
- Working left to right attach the next set of poles onto the bottom poles.
- Clip the second layer of panels above the bottom layer.
- Insert the next layer of pole connectors into the 3' poles.
- Add the 1' poles to the poles in item 8.
- Clip the header panels to the poles in item 9.
- Clip 2 panels to either end of the display stand – these will form the 2 tables as shown in the illustration.
- Attach poles to the panels in item 11.
- Clip the remaining panels to form the 2 tables - 1 triangle, 1 square.
- Attach the table tops.
- Finish by adding the pole caps to the tops of all the poles.
- You are now ready to attach posters with Velcro.
