

A1 Poster

594mm x 841mm

■ Bleed Area

Use this area to extend your colours and images in to, this avoids white lines in your final product after trimming.

■ Trim

This is where your print will be cut, any text or images placed inside the 3mm may be missing from your final version.

□ Safe Area

Use the white area to ensure all of your design; text, images, and designs, are safe. We recommend using 300dpi images to give you the best result possible.
