

Kit includes : 3 piece pole, stabilising foot, top rail, base rail, 2 rigidising strips and carry bag

①

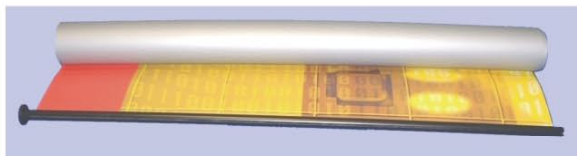

Remove backing paper and adhere both rigidiser strips to the top and base of the graphic (Attach rigidisers to rear of the graphic)

Remove one end cap from the base rail and slide the bottom edge of the banner into the rail slot

Slide the top edge of the banner into the top rail in the same way

②

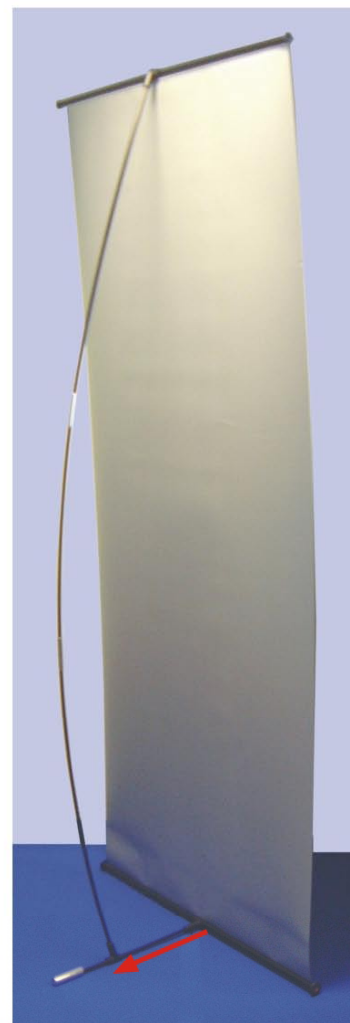

Slide the stabilising foot onto the bottom rail and re-fit the end cap

③

Slide the top section of the 3 piece pole onto the top rail and re-fit the end cap

④

Lift up the banner and connect the remaining two sections of the 3 piece pole
Finally slide the 3 piece poles towards the back of the stabilising foot
