## SIDE 1

## Stackable Display Cube

Place your design within '**Artwork' layer** and **delete 'Guide' layer** once finished. Failure to remove guide layer will result in template printing over artwork design.

## Please ensure:

- Colour: CMYK (RGB will be converted)
- Fonts: Embeded or converted to outlines
- Image Resolution: 300dpi or higher
- Crop marks and 3mm bleed are included
- Accepted format: PDF (one file)

Please upload **one PDF** including two copies of artwork - **one with cutter guide visible and one without**.

## Flat Size: 1264 x 310mm

**Finished Size -** This is the finished size of the product once cut.

**Safe Area -** We recommend keeping text and images out of the grey area, remaining in white box.

**3mm Bleed -** Please extend your artwork into the bleed if you are using full colour or imagery in the background. Anything within this area will be removed once cut.

**Crease -** These lines will be creased to create folds. For best results do not place small text across these lines.
