

## Semi-permanent Banner Display Frames

# The MaxiFrame

### For long term use in demanding road-side locations

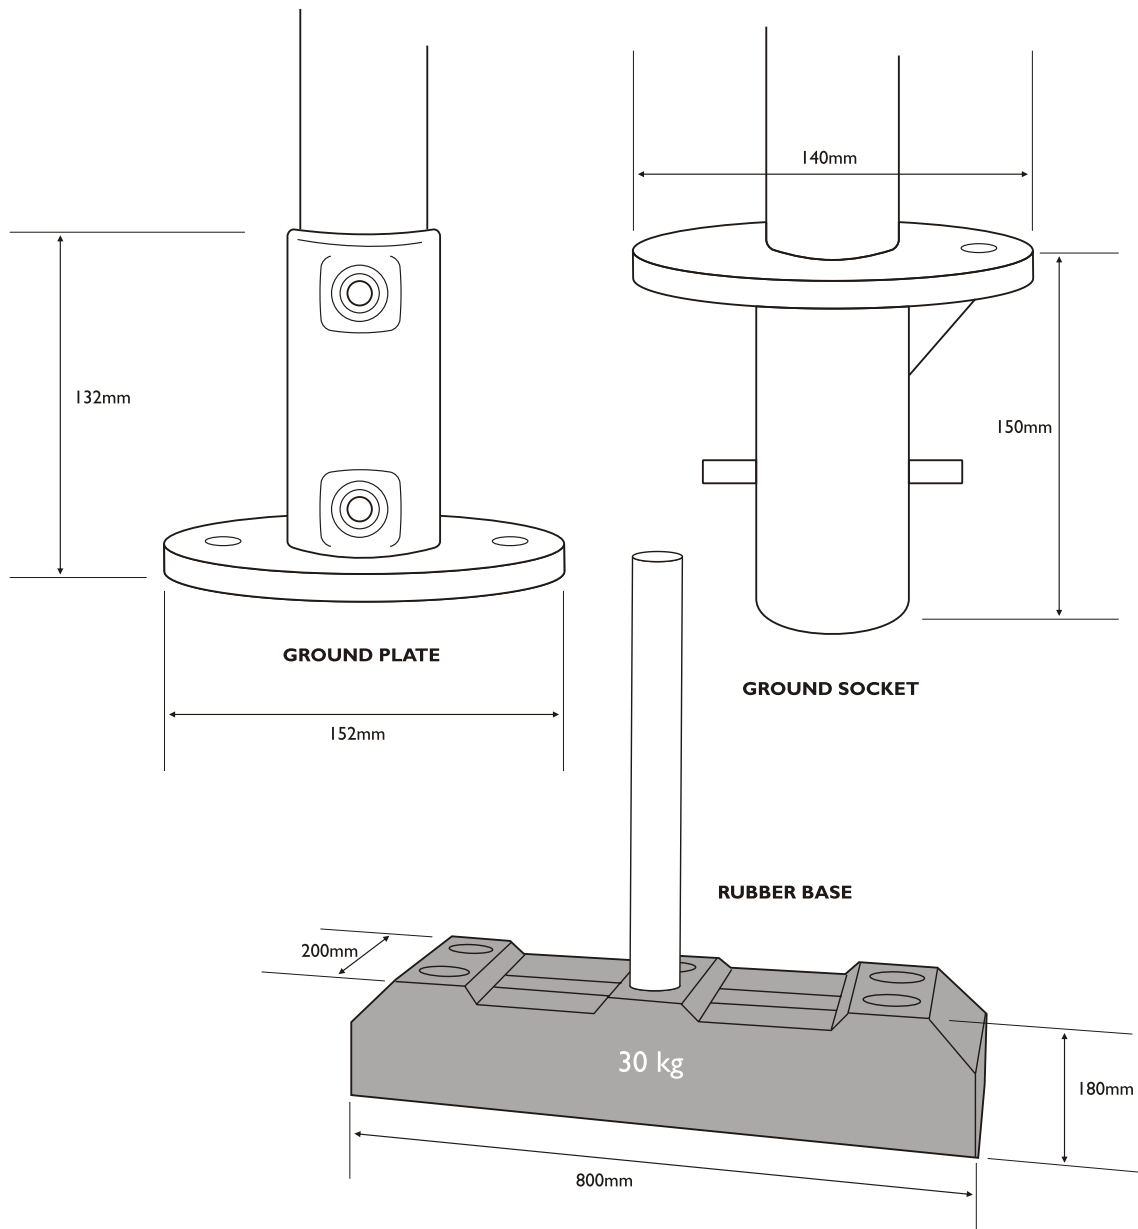

These galvanised steel banner frames offer extreme heavy duty performance whilst still allowing you to occasionally change the positioning of the frame or the message of the banner.

## Semi-permanent Banner Display Frames

# The MaxiFrame

MaxiFrame from JMS Flagpoles offers the ultimate in heavy duty frames without needing to create fixed signage. The MaxiFrame is built from sturdy steel sections, so you can be sure that whatever the British weather can throw at it, your banner will still be professionally displayed, day after day. The MaxiFrame is available with three different base options.
